Fully charge innovation with Ubiquinol by Kaneka™

Ubiquinol by Kaneka™ powers up vitality from within. It's a fundamental ingredient that delivers energy to every cell in the human body at the mitochondrial level and is one of the most powerful fat-soluble antioxidants in the body.

All natural

Readily biologically active and bio-identical to the naturally occurring ubiquinol in the human body.

Sustainable, vegan vegetarian-friendly product

Obtained through biofermentation using non-GMO yeast and solvent free extraction methods to meet the requirements of vegetarian and vegan life styles.

Vitality inside and out

This game-changing ingredient boosts vitality inside and out, for consumers of all ages. Provides natural energy to support in an array of health areas, improving energy production and overall mind and body wellness.

DISCOVER THE MODE OF ACTION**

High bioavailability

Unlike coQ10 alternatives, Ubiquinol by Kaneka™ does not require enzymatic conversion to become biologically active.

High performance

Thanks to its unique formulation design, it is easy to absorb and performs equally in multiple supplement and functional food formats.

Unique Quality Seal for consumer packaging

Products marked with the Kaneka Quality Seal give consumers peace of mind, indicating that the supplements have been made with a high quality Ubiquinol ingredient, following a stringent quality assurance program.
